Subject : Verizon Partner Solutions Industry Letter: Norbeck MD 5ESS Switch Retirement

PLEASE NOTE:

- All references to the Norbeck MD 5ESS switch are associated with CLLI code SLSPMDNBDS0 and will not be repeated throughout this letter.
- All references to the Hyattsville MD CS2K switch are associated with CLLI code HYVLM DHYPS0 and will not be repeated throughout this letter.

As set out in the Verizon Maryland LLC Short Term Public Notice Under Rule 51.333(a), dated May 4, 2026, on or after June 29, 2026, the Norbeck MD 5ESS switch will be retired and removed from the Verizon network.

General Information: The Norbeck MD 5ESS switch will be replaced by the Hyattsville MD CS2K switch. See details in Table A.

Table A

Description	From	To
Office Name	Norbeck	Hyattsville
CLLI Code	SLSPMDNBDS0	HYVLM DHYPS0
Switch Type	5ESS	CS2K
Location	3716 Bel Pre Road Silver Spring, MD 20906	5500 Baltimore Avenue Hyattsville, MD 20781
Point Code	246 193 097	246 193 152
NXX Type	EOC	EOC
OCN	9212	9212
Rate Center LATA	236	236
Rate Center	Norbeck	Hyattsville
State	MD	MD

The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 301 currently residing in the Norbeck MD 5ESS switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) on or after June 29, 2026. See details in Table B.

Table B

NPA	NXX	TYPE	RATECENTER
301	438	EOC	Norbeck
301	460	EOC	Norbeck
301	598	EOC	Norbeck
301	603	EOC	Norbeck
301	871	EOC	Norbeck

Network Changes and Trunk Rearrangements:

The Hyattsville MD CS2K switch will be the recipient office of traffic migrated from the Norbeck MD 5ESS switch. Traffic to be migrated to the Hyattsville MD CS2K switch includes all of the traffic currently handled by the Norbeck MD 5ESS switch including, but not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), and Intra-LATA and local traffic (including CLEC, IEC, wireless and Verizon sector end office switched traffic). After all traffic is migrated off of the Norbeck MD 5ESS switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, ILEC, wireless carriers and paging carriers will need to provision new trunk groups built to the Hyattsville MD CS2K switch or have existing trunk groups to that switch augmented if necessary. Carriers that have direct end office trunks (DEOT) with access connectivity in the Norbeck MD 5ESS switch will be required to reposition the codes to the Hyattsville MD CS2K switch.

All ASRs for the Hyattsville MD CS2K switch must be received no later than **May 18, 2026**, to provide sufficient time to migrate the traffic described above. All traffic must be moved on or after **June 29, 2026**, based on LERG change notification.

Upon decommissioning of the Norbeck MD 5ESS switch, the five (5) NPA NXXs that currently reside in the Norbeck MD 5ESS switch will reflect the Hyattsville MD CS2K switch in the LERG.

Submissions of disconnect ASRs to Verizon for the Norbeck MD 5ESS switch are required immediately after the re-homing of traffic is complete.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Norbeck MD 5ESS switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
