

Keep your business safe with Business Internet Secure

Your business may be secure for now, but cyber threats are always evolving. Business Internet Secure Plus helps protect your network from malware and other cyber threats with no installation needed.

Protection you can count on with Business Internet Secure Plus

Help reduce exposure to ransomware, malware, phishing and malicious websites with security designed for your business.

Business-grade security

A level of protection that works for small businesses

Safe browsing

Helps block malicious sites and reduce exposure to malware

Nothing to install

No installation or IT support needed

Need even more protection? Upgrade to Business Internet Secure Preferred

Includes everything in Plus, along with:

- Customizable content filtering for greater control over access
- Protection for internet connected IoT devices such as thermostats, printers, cameras and your mobile POS
- Guest Wi-Fi protection for added peace of mind

See reverse for important information.
